

Alterar o IP de LAN

Visão traseira

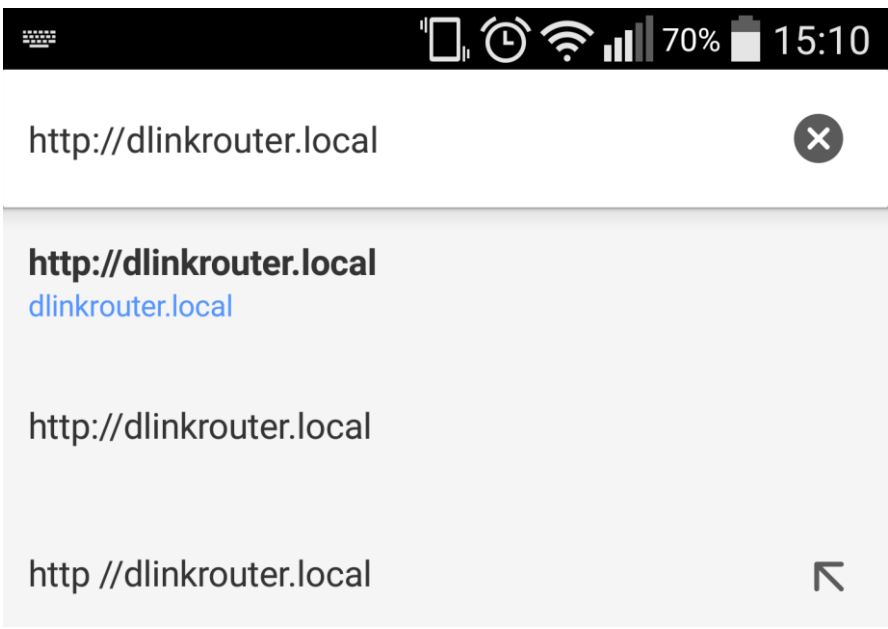

Passo 1

Conecte seu smartphone ou tablet na rede Wi-Fi do DIR-890L.

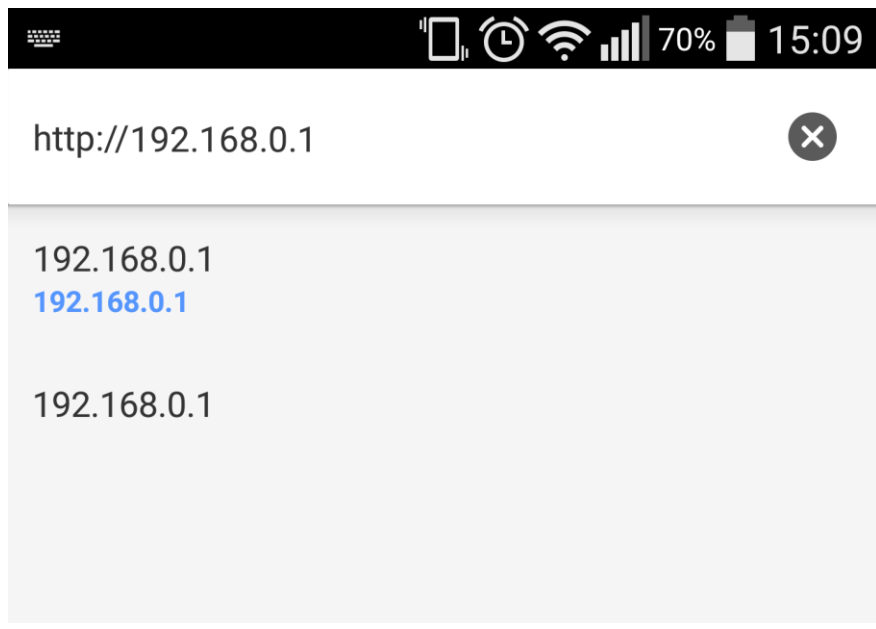

Passo 2

Digite na barra de endereços do navegador o endereço <http://dlinkrouter.local> ou <http://192.168.0.1>

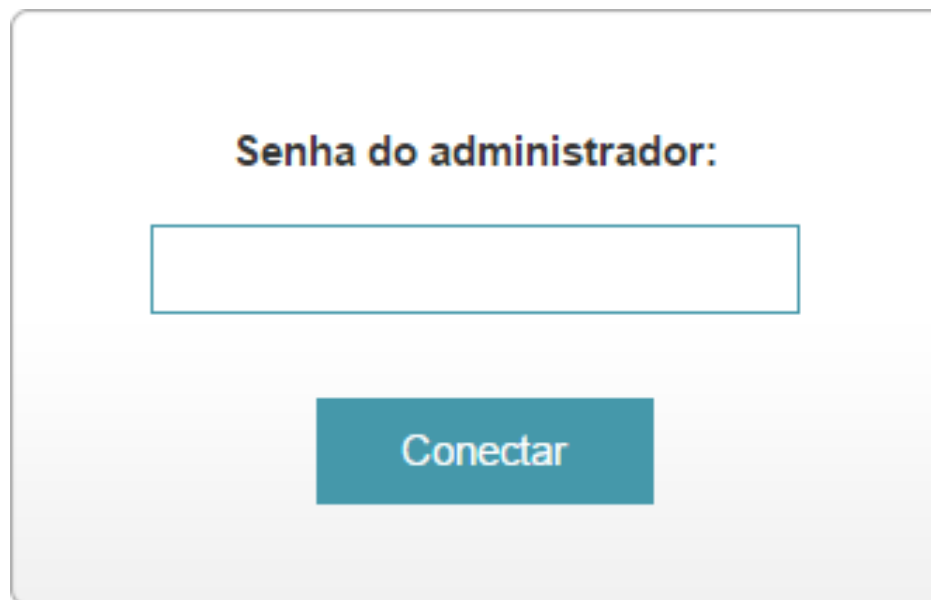

ou

Passo 3

Por padrão a senha do administrador é em branco, clique [Conectar](#).

The image shows a login interface with a light gray background. At the top, the text "Senha do administrador:" is displayed in a bold, black font. Below this text is a rectangular input field with a thin blue border, which is currently empty. Centered below the input field is a teal-colored button with the word "Conectar" written in white text.

Passo 4

Clique na aba [Configurações e Rede \(LAN\)](#).

The screenshot shows the D-Link web interface for a DIR-890L router. At the top, the D-Link logo and model information (DIR-890L HW:A1 FW:1.01beta) are on the left. A navigation bar contains four tabs: 'Principal' (highlighted), 'Configurações', 'Recursos Avançados', and 'Gerenciamento'. Below the navigation bar, the main content area displays 'Internet conectada' with a green status indicator. A sub-header reads 'Clique em qualquer item no diagrama para mais informações'. A network diagram shows 'Internet (WAN)' connected to the router with a green checkmark. A context menu is open over the router icon, listing: 'Passo a Passo', 'Internet (WAN)', 'Wireless (Wi-Fi)', 'Rede (LAN)' (highlighted in blue), 'SharePort', and 'mydlink'. To the right of the router, there are two status indicators: 'Clientes conectados: 1' with a Wi-Fi icon and 'Dispositivo USB' with a USB icon.

Internet (WAN)

Passo 2

Endereço IP da LAN:

Máscara de sub-rede:

Link de gerenciamento: http:// .local/

Nome do domínio local:

Habilitar DNS Relay: **Habilitado**

- No campo **Endereço IP da LAN** digite o IP desejado.
- **Máscara de sub-rede**: Digite a máscara correspondente ao IP.

Passo 3

Clique em **Salvar** e aguarde a configuração ser salva.
