

Atualização de Firmware

DIR-600

DIR-600

Procedimento para atualização de firmware

Sempre mantenha seu equipamento atualizado com a última versão de firmware, isto garante que o seu equipamento tenha todos os patches de segurança, todas as correções de problemas e desempenho otimizado.

Para evitar danos ao equipamento, à atualização de firmware deve ser realizada via cabo Ethernet, e nunca via conexão sem fio.

Antes que seja iniciada a atualização de firmware, verifique se a versão de firmware disponível corresponde com a versão de hardware do seu equipamento. A versão de hardware está localizada na etiqueta embaixo do roteador e é identificada como "*H/W Ver.:*". A atualização deve ser realizada para a mesma versão de hardware (*H/W Ver.:*), mudando somente a versão de firmware.

1- Para realizar o procedimento de atualização de firmware você deve estar conectado via cabo Ethernet à porta LAN do DIR-600 e este deve estar ligado a energia.

Obs.: Para realizar estes procedimentos não é necessário estar conectado à internet.

2- Para acessar a página de configuração abra o navegador de internet, digite na barra de endereços <http://192.168.0.1> e tecla **Enter**.

Será apresentada a tela de autenticação para acesso a página de configuração.

A screenshot of a web browser displaying the login page for a D-Link wireless router. The page has an orange header with the word "LOGIN" in white. Below the header, it says "Log in to the router:". There are two input fields: "User Name" with "admin" entered, and "Password" which is empty. Below the password field, there is a CAPTCHA image showing the characters "HTDMF" in a stylized font. A red box highlights the word "below." in the text "Enter the correct password above and then type the characters you see in the picture below." To the right of the CAPTCHA image is a "Regenerate" button. At the bottom of the form is a "Log In" button.

O usuário e senha padrão do equipamento são:

Nome de Usuário: Admin

Senha: *(deixe em branco)*

Confirme os caracteres no campo Below

Clique em **Login**.

- 3- Clique na guia **Maintenance** na parte superior e **Firmware Update** ao lado esquerdo da página de configuração.

FIRMWARE UPDATE

There may be new firmware for your DIR-600 to improve functionality and performance. [Click here to check for an upgrade on our support site.](#)

To upgrade the firmware, locate the upgrade file on the local hard drive with the Browse button. Once you have found the file to be used, click the Upload button to start the firmware upgrade.

The language pack allows you to change the language of the user interface on the DIR-600. We suggest that you upgrade your current language pack if you upgrade the firmware. This ensures that any changes in the firmware are displayed correctly.

To upgrade the language pack, locate the upgrade file on the local hard drive with the Browse button. Once you have found the file to be used, click the Upload button to start the language pack upgrade.
